

Puppy Kit

Materials Included:

- Ceramic Puppy Figurine
- Brown Acrylic Paint
- Grey Acrylic Paint
- Blue Acrylic Paint
- Red Acrylic Paint
- Black Acrylic Paint
- White Acrylic Paint
- Paint Brush

Instructions

Feel free to follow along or be creative!

Step 1: Paint the entire head and body of the Ceramic Puppy with 2 coats of Grey Acrylic Paint. Try to not paint the ears. It's okay to paint over the eyes, nose, and mouth. Let dry (should only take a few minutes).

Step 2: Paint the nose and inside of the ears with 2 coats of Red Acrylic Paint. Let dry.

Step 3: Next paint 2 coats of Brown Acrylic Paint on the outside of the ears and on the 2 front paws. Let dry.

Step 4: Then Paint a spot around the left or right eye using the Brown Acrylic Paint. It's okay if the brown paint gets on the eye. After that go ahead and paint some brown spots on the back and add paw print pads on the bottom of the back feet. Let dry.

Step 5: Paint the inside of both eyes with White Acrylic Paint. Let dry.

Step 6: Add a dot of Blue Acrylic Paint in the eyes for the iris. Let dry.

Step 7: When all of the other painted areas are completely dry, use the Black Acrylic paint and add eye brows, outline the eyes, add small black dots inside the blue dots for the pupils, add eye lashes, lines for the mouth, and outlines for the legs. (Refer to picture on the left.)

Step 8: Finally when both eyes are totally dry, add a small dot of White Acrylic Paint inside the black pupil. Let your sweet little puppy dry and enjoy!
