

MAGIC METALLIC PINEAPPLE PLAQUE

PROJECT COURTESY OF MAYCO

BISQUE

1016 Pineapple Welcome Plaque

MATERIALS

AC-501	Gloss Brush-On Sealer	AB-710	#3/4 Flat Shader Acrylic Brush
AC-502	Matte Brush-On Sealer		Sponge
MM-600	Spritzer Cap		Water
AB-705	#5 Round Acrylic Brush		Palette
AB-707	#6 Shader Acrylic Brush		

GLAZES

MM-105 Gold Metallic
 MM-202 Green Patina
 SS-92 Royal Fuchsia
 SS-138 Flat Black
 SS-317 Turquoise

INSTRUCTIONS

1. Begin with properly fired cone 04 bisque. Moisten a sponge and wipe bisque to remove any dust.
2. Using the #3/4 Flat Shader with SS-138 Flat Black, apply 1 coat to the front of the pineapple. Allow paint to dry.
3. Remove the cap from MM-202 Green Patina. Replace it with MM-600 Spritzer Cap.
4. Using the #3/4 Flat Shader with MM-105 Gold Metallic, apply 1 coat to the outside of the cactus. Allow paint to dry. Apply a second coat. Do not let it dry.
5. Spritz the entire front of the pineapple with MM-202 Green Patina. Wait an hour.
6. If you are happy with the way it looks, move onto step #7. If you don't have enough patina (bluish green areas), apply MM-105 Gold Metallic to the bare areas with a sponge and spritz again. If you have too much patina, add more MM-105 Gold Metallic with a sponge.
7. Using the #3/4 Flat Shader with AC-502 Matte Brush on Sealer, apply 2 coats over the front of the pineapple. This will stop all oxidation, so you will be able to add an acrylic design to the pineapple.
8. Using the #6 Shader with SS-317 Turquoise, apply 2 coats to the banner. Allow paint to dry between coats.
9. Using the #5 Round with SS-92 Royal Fuchsia, apply 2 coats to the lettering. Allow paint to dry between coats.
10. Using the #3/4 Flat Shader with AC-501 Gloss Brush-On Sealer, apply 1 coat to banner and lettering.
