Project Pricing Sheet

Pricing Notes: When pricing a project don't apply a standard "markup". Instead, consider your market's average class price.

Settle on a price that will sell the project in your market and bring in a decent profit per project.

Take-home vs. in-studio class should also be considered. In-studio classes typically cost more than take-home projects. Remember:

You're a PRO! Price accordingly.

Item	Cost Per Project
2396 Fiesta Salsa Bowl	
Inner/Outer Colors ~1-2 oz ea	
Accent Colors ~ 1 oz ea	
Brushes	
Glaze & Fire* (labor)	
Total Materials Cost	
Class Price (see notes)	Profit Per Project = Class Price-Materials

*Glaze & Fire is approximately 20 min labor @ pay rate you pay the employee who will package materials, dip, load, unload and match tickets for each project.
